

Appendix 2; Relationship of Pre- and Post-Deregulation Routes					
In early 1986, a list was published by the Department of Transport showing all services registered for					
operation from October 26th, 1986. They were all given sequential registration numbers by the DoT,					
which were prefixed by the Operator Licence Number (OLN), which in the case of KHCT Ltd, was PB412.					
In the list which follows, all variations, which were not included in the list, are also shown. Routes					
which operated only in the direction shown are indicated with an asterisk, all others operated in both					
directions. Some cross city routes are shown split into two halves, which relate to two Road Service					
Licences, are in fact operated as a single journey.					
Licence	Original	New	Service	via	Registration
Number	Route Numbers		Terminal Points		Numbers
