

A list of all known circulars follows. Each type is given a code letter as follows:

- A Circulars planned as such, operated in one direction only.
- B As type A operated in both directions with different route numbers.
- C Formed from separate routes, numbers changed at timing point
- D As type A, operated in both directions under one route number.
- E As type C, carried different route numbers in each direction.

Start Date	End Date	Route Nos.	Class	Route & Remarks
