Notes:

E.J. denotes extra journeys (i.e. Services listed in the timetables but not given timings, often peak extras)

- * denotes services which were of extra journey status throughout the period shown
- # denotes services which were of extra journey status for less than the period shown, actual start or finish dates are given in the notes

Dates: On post-war services dates quoted are timetable dates, i.e. Start dates are the date of the first timetable in which the service is shown, whilst the end date is that of the first timetable in which the service was not shown.

Date format is YY/MM.

Previous and Next: These four columns show the previous licence number or next number when a service is transferred between licences. The blue columns give the same information for renumbered services.

Road Service Licences: There are 26 RSL's for which the service is not known, these are marked with a query (?) in the list; there are also 22 services which are known for certain to have been operated in the period concerened.
